Report of Independent Auditors

Honorable Lou Leon Guerero
Governor of Guam

Board of Directors
Guam Solid Waste Authority

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the Solid Waste Operations Fund, Capital Projects Fund, Debt Service Fund and Ordot Dump Reserve Fund, governmental funds of the Government of Guam (the Funds), as of and for the years ended September 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the Funds' basic financial statements as listed in the table of contents (collectively referred to as the "basic financial statements").

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the Funds at September 30, 2025 and 2024, and the respective changes in financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Funds and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Solid Waste Operations Fund, Capital Projects Fund, Debt Service Fund and Ordot Dump Reserve Fund, and do not purport to, and do not, present fairly the financial position of the Government of Guam as of September 30, 2025 and 2024, and changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Funds' ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Funds' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5 through 13 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Funds' basic financial statements. The supplementary comparative financial statements included in pages 35 to 38, the combining Balance Sheets included on page 39, and the combining Statements of Revenues, Expenditures by Function, and Changes in Fund Balances included on page 40, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprise the Comparative Schedule of Employees and Other Data included on page 41 and the General Obligation Bonds and Limited Obligation Bonds on page 42 but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 1, 2026 on our consideration of the Funds' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Funds' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Funds' internal control over financial reporting and compliance.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Management's Discussion and Analysis

Our discussion and analysis of the Government of Guam ("GovGuam") Solid Waste Funds ("GGSWF") financial performance provides an overview of the GGSWF's financial activities for the fiscal years ended September 30, 2025 and 2024. Please read it in conjunction with the GGSWF's financial statements, which follow this section.

1. Financial Highlights

For the fiscal year ended September 30, 2025, total fund balance increased by \$2,311,781 (or 3.4%) from \$67,207,319 in 2024 to \$69,519,100 in 2025.

During the years ended September 30, 2025 and 2024, total combined expenditures including transfers out for governmental fund operations were \$47,165,534 and \$44,754,623, respectively, including debt service requirements of \$20,765,500 and \$22,111,500, respectively; and solid waste operations expenditures and transfers out of \$26,111,279 and \$22,643,123, respectively. These expenditures and transfers out were funded, in part, by the generation of tipping fee revenues during the years ended September 30, 2025 and 2024 of \$25,481,400 and \$25,040,033, respectively; and a transfer in from GovGuam's General Fund of \$19,647,770 and \$20,824,874, respectively, for debt service.

Total combined expenditures including transfers out increased by \$2,410,911 (or 5.4%) from 2024 to 2025 due, in part, to increase of Solid Waste Operational expenditures of \$1.8 million, transfer to Ordot Dump RCRA trust of \$1.7 million and transfer from Capital Project Fund to General Fund of \$278,442 offset by reduction for Debt Service of \$1,346,000.

During the years ended September 30, 2025 and 2024, the Solid Waste Operations Fund generated operating surplus of \$207,143 and \$3,161,146, respectively. Tipping fee revenues recorded by the Solid Waste Operations Fund were \$25,481,400 and \$25,040,033 respectively, an increase of \$441,367 compared to the previous year. Expenditures and transfers out recorded by the Solid Waste Operations Fund were \$26,111,279 in 2025, an increase \$3,468,156 (or 15.3%) compared to the previous year primarily due to increase of \$508,352 for new personnel primarily sanitation workers and customer service representatives, increase of recycling cost of \$300,000 due to allowing residents to haul white goods at transfer stations, increase cost of Layon Operations due to additional tonnage from soil disposal of \$266,503, increase in fleet parts and supplies of \$240,000 and purchase of Capital Equipment at \$406,796.

On February 9, 2024, the Ordot Dump Reserve Fund, created by Public Law 37-64, was established to fund the closure and maintenance of Ordot Dump and the opening and expansion of the Layon landfill. Also allowable are monitoring, testing, ensuring compliance with permits and laws, litigation fees and costs, consultant fees, and fees and costs to ensure compliance with permits as well as expenditures attributable to administering the fund including administrative support to GSWA.

(Governmental Funds of the Government of Guam)

Management's Discussion and Analysis, continued

1. Financial Highlights, continued

On September 20, 2024, Department of Administration (DOA) authorized Bank of Guam to transfer \$30,715,554 to the Ordot Dump Reserve Fund. During the year ending September 30, 2025, the Ordot Dump Reserve Fund realized investment earnings of \$1,403,306.

2. Overview of the Financial Statements

The GGSWF's financial statements include all of the activities of the Solid Waste Operations Fund, the Capital Projects Fund and funds related to the Limited Obligation (Section 30) Bonds, 2016 Series A and General Obligation (GO) Bonds 2019 Series A (the "Funds") and the Ordot Dump Reserve Fund. The financial statements present a balance sheet and a statement of revenues, expenditures, and changes in fund balances. The financial statements do not include the liabilities for the Ordot landfill closure, the recognition of a liability for the eventual closure of the Layon landfill or the Trustee payments discussed in Section 4. These liabilities have been included in the government-wide financial statements of the Government of Guam for the years ended September 30, 2025 and 2024. The assets, liabilities and fund balances of the Funds are reported in self-balancing funds.

GGSWF's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The GGSWF financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Expenditures generally are recorded in the period in which the related fund liability is incurred, as under accrual accounting, with the exception of debt service expenditures, which are recorded only when payment is due.

The notes to the financial statements include additional information needed to provide a further understanding of the GGSWF financial statements.

3. Financial Statement Analysis

Balance Sheet

The balance sheet presents information on GGSWF's assets, liabilities and fund balance at year-end. A condensed summary of GGSWF's balance sheet is shown below as of September 30, 2025, 2024, and 2023.

| | <u>2025</u> | <u>2024</u> | <u>Change in \$</u> | <u>Change in %</u> | <u>2023</u> |
|--|----------------------------|----------------------------|---------------------------|----------------------|----------------------------|
| Assets: | | | | | |
| Cash and cash equivalents | \$ 9,647,385 | \$ 5,419,275 | \$4,228,110 | 78% | \$ 5,702,502 |
| Investments | 2,524,570 | --- | 2,524,570 | 0% | --- |
| Tipping fees receivable | 3,477,774 | 3,659,475 | (181,701) | (5.0%) | 4,192,816 |
| Other receivables | 172,190 | 206,928 | (34,738) | (16.8%) | --- |
| Restricted assets | <u>59,471,906</u> | <u>60,584,201</u> | <u>(1,112,295)</u> | <u>(1.8%)</u> | <u>28,215,331</u> |
| Total assets | <u>\$75,293,825</u> | <u>\$69,869,879</u> | <u>\$5,423,946</u> | <u>7.8%</u> | <u>\$38,110,649</u> |
| Liabilities: | | | | | |
| Accounts payable | 1,616,797 | 1,130,196 | 486,601 | 43.1% | 1,451,376 |
| Contracts retention payable | --- | 95,325 | (95,325) | (100%) | 107,035 |
| Accrued payroll and other | 378,599 | 347,702 | 30,897 | 8.9% | 115,051 |
| Due to general fund | <u>3,779,329</u> | <u>1,089,337</u> | <u>2,689,992</u> | <u>246.9%</u> | <u>2,255,236</u> |
| Total liabilities | <u>5,774,725</u> | <u>2,662,560</u> | <u>3,112,165</u> | <u>116.9%</u> | <u>3,928,698</u> |
| Fund balances: | | | | | |
| Restricted | 58,646,319 | 59,952,391 | (1,306,072) | (2.2%) | 27,149,013 |
| Committed | 10,872,781 | 7,254,928 | 3,617,853 | 49.9% | 7,032,938 |
| Total fund balance | <u>69,519,100</u> | <u>67,207,319</u> | <u>2,311,781</u> | <u>3.4%</u> | <u>34,181,951</u> |
| Total liabilities and fund balances | <u>\$75,293,825</u> | <u>\$69,869,879</u> | <u>\$5,423,946</u> | <u>7.8%</u> | <u>\$38,110,649</u> |

Total assets increased by \$5,423,946 (or 7.8%) from \$69,869,879 in 2024 to \$75,293,825 in 2025. This increase was primarily the result of increase of \$4.2 million in Solid Waste Operations cash and cash equivalents an increase of \$2.5 million in investments offset by a decrease of \$1.1 million in restricted cash and \$182k in Solid Waste accounts receivable.

Total liabilities increased by \$3,112,165 (or 116.9%) from \$2,662,560 in 2024 to \$5,774,725 in 2025. This increase was primarily the result of increase of Due to General Fund of \$2.7 million which represents the vendor payables and \$365k in Host Community Fee deposits.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Management's Discussion and Analysis, continued

3. Financial Statement Analysis, continued

Balance Sheet, continued

Total fund balances increased by \$2,311,781 (or 3.4%) from \$67,207,319 to \$69,519,100. Of the total fund balance amounts presented at each respective fiscal year end, certain restrictions limit the availability of fund resources for future use. Specifically, fund balances are restricted by the bond indenture associated with the Limited Obligation (Section 30) Bonds and the GO Bonds, wherein these funds are restricted for future debt service and capital projects. Proceeds from Ordot Settlement are restricted primarily for the Ordot Dump closure and maintenance costs and opening and expansion of Layon Landfill.

Statement of Revenues, Expenses and Changes in Fund Balances

The statement of revenues, expenses and changes in fund balances shows the effect of revenues and expenditures on GGSWF's fund balance for the year. GGSWF's statements of revenues, expenses and changes in fund balances for the years ended September 30, 2025, 2024 and 2023 are summarized as follows:

| | 2025 | 2024 | <u>Change in \$</u> | <u>Change in %</u> | 2023 |
|--|---------------------|---------------------|---------------------|--------------------|---------------------|
| Revenues: | | | | | |

Management's Discussion and Analysis, continued

3. Financial Statement Analysis, continued

Statement of Revenues, Expenses and Changes in Fund Balances, continued

Total revenues and transfers in decreased by \$28,302,676 (or 36.4%) from \$77,779,991 in 2024 to \$49,477,315 in 2025. This decrease was primarily due to the \$29.99 million decrease in transfers in, \$98,327 decrease in Solid Waste Operations Fund use of money and property and \$70,188 decrease in Debt Service use of money and property and offset by an increase of \$1,093,551 in use of money and property and \$441,367 in tipping fees. In FY2024, GSWA received a one-time \$30,586,764 proceeds from the Ordot Settlement.

Total expenditures including transfers out increased by \$2,410,911 (or 5.4%) from \$44,754,623 in 2024 to \$47,165,534 in 2025. This increase was, in part, primarily due to increase of \$1.7 million in Solid Waste Operational expenditures, transfers out of \$1.7 million to Ordot Dump Reserve Fund, Capital Projects Fund transfers out of \$288,755 to General Fund offset by reduction of Debt Service of \$1,346,000.

Long Term Debt

In 2016, GovGuam issued \$236,605,000 in Limited Obligation (Section 30) Bonds. Proceeds were primarily to be used: (i) to refund all the outstanding 2009 Series A Limited Obligation (Section 30) Bonds; (ii) to refinance all of the outstanding 2013 Series B Guam Education Financing Foundation II, Inc. Certificates of Participation (Okkodo High School Expansion Project); (iii) to finance certain Guam Memorial Hospital Authority (GMHA) capital costs, refinancing of GMHA Bank of Guam Loan, and paying GMHA vendor accounts payable for 2016 and 2017; and (iv) other bond costs. The Limited Obligation Bonds are to be paid solely from and secured by a pledge of Section 30 Revenues.

In 2019, GovGuam issued \$27,610,000 in GO Bonds. Proceeds were primarily to be used: (i) to pay costs relating to the new cell construction for the Layon Municipal Sanitary Landfill operated by the Guam Solid Waste Authority (GSWA); and (ii) to pay costs associated with the issuance of the bonds. GovGuam pledged its full faith and credit for the punctual payment of principal and interest on the bonds. In addition, GovGuam has covenanted to make deposits from the Solid Waste Operations Fund to the Debt Service Fund in sufficient amounts to cover future debt service obligations.

On October 21, 2024 and November 8, 2024, the remaining balance on the Construction Account of \$294,729 and \$623, respectively, was transferred to General Fund to close the fund.

For additional information related to long-term debt, refer to Note 4 to the financial statements.

Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Management's Discussion and Analysis, continued

4. Outlook, Challenges and Opportunities

Partial End of Receivership

In 2019, the Court issued an order regarding Partial End of Receivership turning day-to-day operations of GSWA from the Receiver to GSWA management, effective May 1, 2019. The Receiver's remaining responsibilities include the approval of Ordot Dump Post Closure Care Plan by the U.S. Environmental Protection Agency (USEPA) and Guam Environmental Protection Agency, and the issuance of a Post Closure Permit.

USEPA, in consultation with the Receiver, issued an estimated revised technical path for Ordot's Post Closure Care Plan approval and issuance of the Post Closure permit date to January 16, 2022.

Under the order, GSWA was required to fully fund by August 2026 an account held in trust to pay for the estimated future costs of managing and maintaining the Ordot landfill site until it can be reclaimed by GovGuam for alternative use.

In August 2022, the court order required GSWA and the Receiver to come up with a baseline schedule for the seeps, leachate and meter calibration investigations. The court also ordered that an estimate for post closure care expenses and proposed funding options and a proposed schedule on the full termination of the Receivership.

To date, many of these initiatives have been completed or are well on their way to completion. The Government Guam settlement with DOD should satisfy the court ordered fully funded RCRA trust fund. The documentation of ending of waste acceptance and Special Environmental Project reporting is being reviewed and likely accepted by USEPA.

The Seep investigation yielded a leaky GWA waterline on December 22, 2022 which contributed in large part to the noticeable increased leachate flows. There appears to be some seasonal variation to leachate flows and Ordot's ponds and ditches are being reviewed to confirm or eliminate them as potential sources.

A court ordered mediation between the Receiver, Design and Construction companies could resolve the additional seasonal increases of leachate through a financial settlement. The Mediation effort may hasten the release of the Receiver in 2026.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Management's Discussion and Analysis, continued

4. Outlook, Challenges and Opportunities, continued

Other operational challenges are instructing, coaching and transforming the current collection workforce to the established 21st century standard procedures for safe, economical and customer service-oriented collection methods. To this end, wireless tablets will be utilized in collection vehicles which will give real time information on customer address, account status and any special collection instructions. GSWA vehicle purchases incorporated automated collection, which will reduce manual labor in collecting refuse containers. This equipment require training in their usage. Island Wide collection of residential waste may occur in 2027. This will present challenges in doubling the number of new customers into the Billing system and possibly present collection issues.

Other challenges are financial in nature; to build sufficient capital improvement funds for cell construction, closure and post-closure requirements. To this end a closure/solar panel construction is seeking grant approval. This would allow the defraying of closure construction costs and set up a revenue stream independent of refuse fees.

Capital Projects

In 2019, GovGuam successfully issued GO Bonds to fund the new cell construction at the Layon Landfill. Net proceeds were deposited into the Construction Account held with the Bond trustee.

Layon Landfill cell 3 construction was completed on June 28, 2021 and started accepting waste July 15, 2021. To close the Construction Account, the residual balance was transferred to General Fund on November 8, 2024.

Contracts

On July 1, 2019, GovGuam and GSWA entered into a Continuing Covenant Agreement in which GSWA committed to pay the debt service of the GO Bonds using all lawfully available gross income and other amounts received by or on behalf of GSWA as revenues of the system (which are recorded within the Solid Waste Operations Fund) as long as bonds are outstanding.

On November 11, 2019, the Receiver assigned the Cell 3 construction contract with Core Tech International Corporation to GSWA.

The Receiver will continue to review and approve invoices from the operator of the Ordot Dump post closure facility until such time the Post Closure Care Plan is approved and permit is issued, the Trustee is in place and the Court has ordered the transfer of the Ordot Dump Post Closure Care Reserve funds to the Ordot Dump Post Closure Trust Fund account.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Management’s Discussion and Analysis, continued

4. Outlook, Challenges and Opportunities, continued

Contracts, continued

GSWA has developed rate options for presentation to the Guam Public Utilities Commission. These options explore the ending of Receivership and the creation of mandatory refuse collection. Both options are of financial benefit to GSWA in providing reduced expenses and increased revenue respectively.

GSWA is also currently exploring options on renegotiating Receiver contracts. To date the HHW contract and Green Group contracts have produced significant savings. The Temporary Labor services contract was rebid at PUC required yearly targets. Currently GSWA is working with Receiver in adjusting the scope and term on the Ordot Operations contract. This should yield savings in 2024 and 2025.

The Receiver has developed two rate options for presentation to the Guam Public Utilities Commission. Each option would provide for adequate funding for GGSWF for 2013 and thereafter.

GSWA entered a contract for temporary employees for three years beginning October 1, 2022 and ending September 30, 2025.

These options are outlined in the following table:

| <u>Customer Type</u> | <u>Current Rate*</u> | <u>Full Gov’t Reimbursement Rate</u> |
|------------------------------|----------------------|--|
| Commercial (per ton) | \$ 172 | \$ 225 |
| Residential (per month) | \$ 30 | \$ 35 |
| Residential Transfer Station | \$7.50 / \$15 | \$7.50 / \$15 |
| Cost to GovGuam | \$7,483,397 | \$ --- |

*The effective commercial rate per ton is \$156 per ton when haulers pay on time, electronically using ACH, and do not use Public Law 25-93.

Based on the Receiver’s determination, the Current Rate option was adequate to provide for the operation of GGSWF through 2019. The current rate can be maintained if GovGuam does not seek to obtain reimbursement from GSWA for the debt service paid from Federal Section 30 funds. If, however, GovGuam seeks reimbursement from GSWA for that portion of the debt service of Section 30 funds, it will need to adopt the full government reimbursement rate. To date, no action has been taken to adopt a new rate for GSWA. Rates are subject to the Guam Public Utilities Commission approval.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements

Years ended September 30, 2025 and 2024

1. Summary of Significant Accounting Policies

The accompanying basic financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the significant accounting policies used by the Solid Waste Operations Fund, Capital Projects Fund, Debt Service Fund and Ordot Dump Reserve Fund.

Reporting Entity

The Government of Guam (GovGuam) Solid Waste Operations Fund, created by Public Law 24-272, was established to provide solid waste collection and disposal services and a financing source for GovGuam's costs directly related to the closure and post-closure of the solid waste landfill. Revenues are derived from tipping, user and other associated fees to be used solely for solid waste management practices. The Solid Waste Operations Fund includes the Ordot Dump Postclosure Reserve Account, which was established to comply with a Court Order issued on May 2, 2016 concerning the financing plan for postclosure care of Ordot Dump.

In 2009, GovGuam issued Limited Obligation (Section 30) Bonds, 2009 Series A, for the purpose of constructing a new landfill, closure of Ordot Dump, prepaying a bank loan and funding capitalized interest. In 2016, the Limited Obligation (Section 30) Bonds, 2009 Series A were refunded by GovGuam through issuance of the Limited Obligation (Section 30) Bonds, 2016 Series A.

In 2011, Public Law 31-20 was enacted, which provided for the continuation of the existence of the Solid Waste Management Division, a sub-entity of GovGuam's Department of Public Works, as an autonomous public corporation now referred to as the Guam Solid Waste Authority (GSWA). GSWA's transactions are accounted for under the Solid Waste Operations Fund, the Capital Projects Fund, the Debt Service Fund and the Ordot Dump Reserve Fund. The GovGuam Department of Administration (DOA) is responsible for establishing and managing these funds on behalf of GSWA. The accompanying financial statements relate solely to those accounting records maintained by DOA associated with GSWA and do not incorporate any accounts related to any other departments or agencies of GovGuam.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

1. Summary of Significant Accounting Policies, continued

Reporting Entity, continued

In 2019, the District Court ordered the partial end of the Receivership, effective April 30, 2019. Accordingly, administrative and managerial responsibility of day-to-day operations were returned to GovGuam. Control and responsibility of all aspects of the solid waste operations previously under the control of the Receiver were turned over to GSWA with the exception of the Ordot Dump Post Closure Reserve Account. Furthermore, GovGuam issued General Obligation Bonds, 2019 Series A, for the purpose of paying the costs related to the construction of a new cell for the Layon Municipal Sanitary Landfill. The Capital Projects Fund is used to account for the closure of the Ordot Dump and the construction of a new landfill from bond proceeds. The Debt Service Fund is used to account for funds required by the bond indenture to redeem bond principal and to pay bond interest as such becomes due.

In 2019, GovGuam issued \$27,610,000 in General Obligation Bonds, 2019 Series A, for the purpose of providing proceeds to fund the construction of a new cell for the Layon landfill (the Series 2019 Project), and which are backed solely by the full faith and credit of GovGuam.

In February 2024, the Ordot Dump Reserve Fund, created by Public Law 37-64, was established to cover the costs associated with closing and maintaining the Ordot Dump, as well as the opening and expansion of the Layon landfill. These costs include monitoring, testing, ensuring compliance with permits and laws, litigation fees and costs, consultant fees, and expenses related to permit compliance. The Ordot Dump Reserve Fund may also be used for related administrative costs of the GSWA.

In November 2024, the Construction Account maintained under the Capital Projects Fund was closed. All remaining funds were transferred to DOA.

Fund Accounting

The accompanying basic financial statements present a balance sheet and a statement of revenues, expenditures, and changes in fund balances. The assets, liabilities and fund balances of the Solid Waste Operations Fund, Capital Projects Fund, Debt Service Fund and Ordot Dump Reserve Fund related to the Limited Obligation (Section 30) Bonds, 2016 Series A and the General Obligation Bonds, 2019 Series A, are reported in self-balancing funds. Transactions between funds, if any, have not been eliminated.

Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

1. Summary of Significant Accounting Policies, continued

Measurement Focus and Basis of Accounting

The accompanying basic financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, revenues are considered available if they are collected within 90 days of the end of the current fiscal period. Revenues susceptible to accrual include tipping, user and associated fees. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are generally recorded in the period in which the related fund liability is incurred, as under accrual accounting, with the exception of debt service expenditures, which are recorded only when payment is due.

Tipping and associated fees imposed are as follows:

Commercial

Commercial haulers are billed per tonnage of trash. The rate per tonnage is \$171.60.

Residential

Residential customers are billed for weekly curbside trash collection services. The monthly rate per one 96-gallon cart is \$30. Further, residential customers are billed \$15 per month for every additional 96-gallon cart. Residential customers bringing their household trash to the transfer stations are assessed the following fees: (a) \$7.50 up to three cubic yards, and (b) \$15 from three up to a maximum of six cubic yards.

Host Community Premium Surcharge

GSWA is authorized to assess Host Community Premium Surcharge (HCPS) fees of \$3.57 per ton for commercial, including government customers, and \$0.38 per month for residential customers. The HCPS fees were to compensate the villages of Inarajan and Ordot where solid waste management facilities, such as sanitary landfills, are located. During the years ended September 30, 2025 and 2024, HCPS revenues were \$475,882 and \$460,445, respectively.

Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

1. Summary of Significant Accounting Policies, continued

Budgetary Process

Legislation requires the Governor to present a proposed budget to the Legislature at the beginning of each annual session. The Legislature enacts the budget through passage of specific departmental appropriations. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to legislative override. Once passed and signed, the budget becomes the territorial financial plan for the ensuing fiscal year. Supplemental appropriations for specific purposes are made throughout the year. Encumbrances are commitments related to unperformed (executory) contracts for goods or services and are generally evidenced by outstanding purchase orders, contracts, and intradepartmental work requests. Encumbrances outstanding at year end are reported within the fund balance classifications since they do not constitute expenditures or liabilities. Unencumbered appropriations normally lapse at the end of each fiscal year unless they are designated by the Guam Legislature as representing in continuing appropriations.

Cash and Cash Equivalents

Cash and cash equivalents include cash held in demand deposit accounts, time certificates of deposits, and investments in U.S. Treasury obligations and commercial paper with original maturity dates three months or less from the date of acquisition. Time certificates of deposit with original maturities of more than three months are separately presented under investments. GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk and foreign currency risk. As an element of interest rate risk, disclosure is required of investments that have fair values that are highly sensitive to changes in interest rates. GASB Statement No. 40 also requires disclosure of formal policies related to deposit and investment risks.

Receivables and Allowance for Uncollectible Accounts

Receivables are due from commercial haulers, government agencies and individuals residing on the island of Guam, are uncollateralized and are stated net of estimated allowances for uncollectible accounts. The allowance for uncollectible accounts is based on the evaluation of the collectability of current accounts and historical trends. Revenues are considered available if they are collected within 90 days of the end of the current fiscal period.

Interfund Receivables/Payables

During the course of its operations, the GovGuam General Fund records transactions between individual funds for goods provided or services rendered. These balances result from the time lag between the dates that (1) goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and 3) payments between funds are made, and are scheduled to be collected in the subsequent year.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

1. Summary of Significant Accounting Policies, continued

Interfund Receivables/Payables, continued

Transfers are used to move revenues from the fund that enabling legislation or budget requires to collect them to the fund that enabling legislation or budget requires to expend them. Specifically, as of September 30, 2025 and 2024, \$4,796,463 and \$3,047,833, respectively, was transferred from the Solid Waste Operations Fund to the Debt Service Fund representing covenanted deposits to the Debt Service Fund for the purpose of funding debt service payments associated with the General Obligation Bonds Series A, 2019.

Minimum future covenanted deposits from the Solid Waste Operations Fund to the Debt Service Fund are as follows:

| Year ending <u>September 30,</u> | |
|-------------------------------------|---------------------|
| 2026 | \$ 2,995,875 |
| 2027 | 2,994,875 |
| 2028 | 2,998,125 |
| 2029 | 2,995,375 |
| 2030 | 2,996,375 |
| 2031-2033 | <u>5,993,875</u> |
| | <u>\$20,974,500</u> |

Investments

Investments and related investment earnings are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability i.e. (the exit price) in an orderly transaction between market participants at the date as of which the fair value of an asset or liability is determined.

Restricted Assets

The bond indenture relating to the Limited Obligation (Section 30) Bonds, 2016 Series A and Government of Guam General Obligations Bonds, 2019 Series A, require amounts to be restricted for capital projects and debt service. Furthermore, a Court Order requires amounts to be restricted for Ordot Dump post closure activities. Deposits held under the Ordot Dump Reserve Fund are restricted for costs associated with the opening and expansion of the Layon landfill. These amounts have been classified as restricted assets.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

1. Summary of Significant Accounting Policies, continued

Fund Balance

Governmental fund balances are classified as follows:

Restricted - includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed - includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end.

Restricted/committed amounts are spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this. A formal minimum fund balance policy has not been adopted.

Encumbrances

At September 30, 2025 and 2024, there were no significant encumbrances incurred.

Management Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Total Columns

Total columns are presented primarily to facilitate financial analysis. The Management's Discussion and Analysis (MD&A) includes certain prior year summarized comparative information in total. Such information does not include sufficient detail to constitute a full comparative presentation. Accordingly, such information should be read in conjunction with the financial statements of the Solid Waste Operations Fund, Capital Projects Fund, Debt Service Fund and Ordot Dump Reserve Fund for the years ended September 30, 2025 and 2024 from which summarized information were derived.

Recently Adopted Accounting Pronouncements

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The unified recognition and measurement model in this Statement will result in a liability for compensated absences that more appropriately reflects when a government incurs an obligation. In addition, the model can be applied consistently to any type of compensated absence and will eliminate potential comparability issues between governments that offer different types of leave. The model also will result in a more robust estimate of the amount of compensated absences that a government will pay or settle, which will enhance the relevance and reliability of information about the liability for compensated absences. The implementation of this Statement did not have a material effect on the accompanying financial statement.

In December 2023, GASB issued Statement No. 102, *Certain Risk Disclosures*. The primary objective of this Statement is to provide users of the government financial statements with essential information about risks related to a government's vulnerabilities due to ascertain concentrations or constraints. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. Management is evaluating the effect that this Statement, upon implementation, will have on the financial statements. The implementation of this Statement did not have a material effect on the accompanying financial statement.

Upcoming Accounting Pronouncements

In April 2024, GASB issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The requirements for MD&A will improve the quality of the analysis of changes from the prior year, which will enhance the relevance of that information. They also will provide clarity regarding what information should be presented in MD&A. The requirements for the separate presentation of unusual or infrequent items will provide clarity regarding which items should be reported separately from other inflows and outflows of resources. The definitions of operating revenues and expenses and of nonoperating revenues and expenses will replace accounting policies that vary from government to government, thereby improving comparability.

Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

1. Summary of Significant Accounting Policies, continued

Upcoming Accounting Pronouncements, continued

The addition of a subtotal for operating income (loss) and noncapital subsidies will improve the relevance of information provided in the proprietary fund statement of revenues, expenses, and changes in fund net position. The requirement for presentation of major component unit information will improve comparability. The requirement that budgetary comparison information be presented as RSI will improve comparability, and the inclusion of the specified variances and the explanations of significant variances will provide more useful information for making decisions and assessing accountability. GASB Statement No. 103 will be effective for fiscal year ending September 30, 2026.

In September 2024, GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement 34. Lease assets recognized in accordance with Statement No. 87, Leases, and intangible right-to-use assets recognized in accordance with Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, should be disclosed separately by major class of underlying asset in the capital as-sets note disclosures. Subscription assets recognized in accordance with Statement No. 96, Subscription-Based Information Technology Arrangements, also should be separately disclosed. In addition, this Statement requires intangible assets other than those three types to be disclosed separately by major class. This Statement also requires additional disclosures for capital assets held for sale. A capital asset is a capital asset held for sale if (a) the government has decided to pursue the sale of the capital asset and (b) it is probable that the sale will be finalized within one year of the financial statement date. Governments should consider relevant factors to evaluate the likelihood of the capital asset being sold within the established time frame. This Statement requires that capital assets held for sale be evaluated each reporting period. Governments should disclose (1) the ending balance of capital assets held for sale, with separate disclosure for historical cost and accumulated depreciation by major class of asset, and (2) the carrying amount of debt for which the capital assets held for sale are pledged as collateral for each major class of asset. GASB Statement No. 104 will be effective for fiscal year ending September 30, 2026.

In December 2025, GASB issued Statement No. 105, *Subsequent Events*. The objective of this Statement is to improve the financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of financial statement users. This Statement defines subsequent events as transactions or other events that occur after the date of the financial statements but before the date the financial statements are available to be issued. This Statement describes the date the financial statements are available to be issued as the date at which (1) the financial statements are complete in a form and format that complies with generally accepted accounting principles and (2) approvals necessary for issuance have been obtained.

Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

1. Summary of Significant Accounting Policies, continued

Upcoming Accounting Pronouncements, continued

That definition modifies the subsequent events time frame throughout the GASB literature. This Statement also requires the date through which subsequent events have been evaluated to be disclosed. This Statement clarifies the subsequent events that constitute recognized and nonrecognized events and establishes specific note disclosure requirements for nonrecognized events. GASB Statement No. 105 will be effective for fiscal year ending September 30, 2027.

Management is currently evaluating the effects the above upcoming accounting pronouncements might have on the financial statements.

2. Deposits and Investments

The deposit and investment policies of GovGuam are governed by 5 GCA 21, *Investments and Deposits*, in conjunction with applicable bond indentures. The DOA Director is responsible for the safekeeping of all monies paid into the Treasury of Guam. The DOA Director invests any monies of GovGuam that are deemed not necessary for immediate use. Legally authorized investments include securities issued or guaranteed by the U.S. Treasury or agencies of the United States government; demand and time deposits in or certificate of deposit of, or bankers' acceptances issued by, any eligible institution; corporate debt obligations, including commercial paper; certain money market funds; state and local government securities, including municipal bonds; and repurchase and investment agreements. With the exception of investments in U.S. government securities, which are explicitly or implicitly guaranteed by the United States government, all other investments must be rated Aa1/P-1 by Moody's.

A. Deposits

Custodial credit risk is the risk that in the event of a bank failure, GSWA's deposits may not be returned to it. Such deposits are not covered by depository insurance and are either uncollateralized, or collateralized with securities held by the pledging financial institution or held by the pledging financial institution but not in the depositor-government's name. GSWA does not have a deposit policy for custodial credit risk.

As of September 30, 2025 and 2024, the carrying amount of GSWA's total cash and cash equivalents were \$10,632,251 and \$5,419,275, respectively and the corresponding bank balances were \$10,618,260 and \$5,197,973, respectively, which are maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance. As of September 30, 2025 and 2024, bank deposits in the amount of \$3,269,510 and \$3,647,508, respectively, are subject to the FDIC insurance limit. GSWA does not require collateralization of its cash deposits; therefore, deposit levels in excess of FDIC coverage are uncollateralized. As of September 30, 2025 and 2024, bank deposits in the amount of \$7,348,750 and \$1,765,748, respectively, are not collateralized. Accordingly, these deposits are exposed to custodial credit risk.

Government of Guam
Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

2. Deposits and Investments, continued

A. Deposits, continued

As of September 30, 2025, the carrying amount of GSWA's investments of \$23,110,431 and corresponding bank balance of \$22,824,942 is also maintained in financial institutions subject to FDIC insurance and National Credit Union Administration (NCUA) insurance. As of September 30, 2025, these bank deposits in the amounts of \$4,999,723 and \$500,000, are covered by FDIC and NCUA insurance limits, respectively. Bank deposits in the amount of \$17,325,219 are not collateralized. Accordingly, these deposits are exposed to custodial credit risk.

B. Investments

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Concentration of credit risk for investments is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB Statement No. 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments.

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to the transaction, GovGuam will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments are held and administered by trustees in accordance with various bond indentures for the purpose of funding capital projects that benefit Guam's tourism industry. Based on negotiated trust and custody contracts, all of these investments were held in GovGuam's name by GovGuam's custodial financial institutions at September 30, 2025 and 2024.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt instruments. GovGuam does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

The Funds categorized its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Solid Waste Operations Fund, Capital Projects Fund,
Debt Service Fund and Ordot Dump Reserve Fund
(Governmental Funds of the Government of Guam)

Notes to the Financial Statements, continued

2. Deposits and Investments, continued

B. Investments, continued

Following is a description of the valuation methodologies and inputs used for each major type of investment measured at fair value by the Funds:

Money market funds: These investments in money market mutual funds are measured at amortized cost. These money market mutual funds have investments with underlying Moody’s investment risk of AAA.

Debt securities: These investments are valued using evaluations, which may be matrix or model based, and do not necessarily reflect actual trades. These price evaluations suggest current estimated market values, which may be significantly higher or lower than the amount that would be paid (received) in an actual purchase (sale) of the security. These estimates, which are obtained from various sources, assume normal market conditions and are based on large volume transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Funds believe its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of September 30, 2025 and 2024, investments are classified as follows:

| | 2025 | | | | |
|----------------------------|-----------------------------------|-----------------------------|-------------------------|-------------------------------|---------------------|
| | Solid Waste Operations Fund | Capital Projects Fund | Debt Service Fund | Ordot Dump Reserve Fund | Total |
| Investments at fair value: | | | | | |
| Money market mutual funds | \$ 701,575 | \$ --- | \$20,339,983 | \$15,850,321 | \$36,891,879 |

2. Deposits and Investments, continued

B. Investments, continued

The Funds have the following recurring fair value measurements as of September 30, 2025:

| | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
|----------------------------------|---------------------|---------------------|---------------------|
| Investments by fair value level: | | | |
| Money market funds | \$36,891,879 | \$36,891,879 | \$ --- |
| Debt securities | <u>1,009,300</u> | <u>---</u> | <u>1,009,300</u> |
| | <u>\$37,901,179</u> | <u>\$36,891,879</u> | <u>\$ 1,009,300</u> |

The Funds' debt securities at September 30, 2025 include U.S. treasury bills with an underlying credit rating Moody's investment risk of AAA and maturity period of one year.

The Funds have the following recurring fair value measurements as of September 30, 2024:

| | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
|----------------------------------|---------------------|---------------------|----------------|
| Investments by fair value level: | | | |
| Money market funds | <u>\$60,584,201</u> | <u>\$60,584,201</u> | <u>\$ ---</u> |

3. Receivables

Receivables as of September 30, 2025 and 2024, respectively, including allowances for uncollectible accounts, are as follows:

| | <u>2025</u> | <u>2024</u> |
|--------------------------------------|--------------------|--------------------|
| Commercial | \$2,312,415 | \$2,291,267 |
| Residential | 1,308,172 | 1,376,791 |
| Government: | | |
| Guam Waterworks Authority (GWA) | 126,545 | 153,730 |

4. Debt Service

General Obligation Bonds Series A, 2019

In 2019, GovGuam issued \$27,610,000 in General Obligation Bonds, 2019 Series A, for the purpose of providing proceeds to fund the construction of a new cell for the Layon landfill (the Series 2019 Project), and which are backed solely by the full faith and credit of GovGuam. The net proceeds of \$31,637,747 (including an issue premium of \$4,027,747) together with a \$375,000 contribution from the Solid Waste Operations Fund less cost of issuance of \$1,007,755 were deposited to the Construction Account. Total principal and interest remaining on the General Obligation Bonds, 2019 Series A, 2016 bonds is \$17,700,000 payable through November 2031.

The Issuance Certificate, dated July 1, 2019, sets forth the establishment of accounts, the periodic deposits into these accounts, and certain other covenants to ensure payment of debt service. The following funds and accounts are established under the Certificate dated July 1, 2019:

Construction Account - Moneys on deposit in the Construction Account will be disbursed by the Depository for the payment of the project costs associated with the Series 2019 Project. In October and November 2024, all moneys were transferred to DOA and this account was closed.

Bond Fund - the Trustee shall apply moneys on deposit in this Fund solely for the purposes of (1) paying interest on the Bonds as it shall become due and payable, (2) paying the principal of the Serial Bonds when due and payable and (3) purchasing, redeeming or paying at maturity the Term Bonds as provided in the Certificate.

Limited Obligation (Section 30) Bonds Series A, 2016

The Section 30 Series A, 2016 bonds are backed by the full faith and credit of GovGuam, payable solely from and collateralized by a pledge of Section 30 revenues collected by the GovGuam General Fund. These bonds were issued for the purpose of refunding 2009 Section 30 LOB bonds; refinancing all of the outstanding 2013 Series B Certificates of Participation (Okkodo High School Expansion Project); and to provide additional proceeds to fund certain working capital costs of the Guam Memorial Hospital Authority (the 2016 Hospital Working Capital Project). Total principal and interest remaining on the Section 30 Series A, 2016 bonds is \$232,702,750 payable through December 2046. For the year ended September 30, 2025, principal and interest paid and total Section 30 revenues were \$19,647,770 and \$17,769,000, respectively. For the year ended September 30, 2024, principal and interest paid and total Section 30 revenues were \$20,824,874 and \$19,114,500, respectively.

4. Debt Service, continued

Limited Obligation (Section 30) Bonds Series A, 2016, continued

The Amended and Restated Indenture, dated August 1, 2016, as updated by supplemental indentures, sets forth the establishment of accounts, the application of revenues and of periodic deposits into these accounts, and certain other covenants to ensure payment of debt service. The following revenue covenant together with funds and accounts are established under the Amended and Restated Indenture dated August 1, 2016.

Revenue Covenant - GovGuam has covenanted that it will not issue or incur any obligations having a claim on the Section 30 Revenues prior to the claim of the Section 30 Series A, 2016 bonds and any bonds on a parity therewith. GovGuam has also covenanted that it shall deposit or cause to be deposited all Section 30 Revenues upon receipt into the Section 30 Revenue Fund which the Trustee shall maintain and hold in trust.

Escrow Fund - Moneys on deposit in the Escrow Fund to be disbursed to pay the principal of and interest on the refunded 2009 Section 30 LOB bonds and 2013 Series B certificates of participation.

Project Account - Moneys on deposit in the Project Account will be disbursed by the Depository for the payment of 2016 Hospital Working Capital Project Costs.

Costs of Issuance Account - Moneys on deposit in the Costs of Issuance Account have been disbursed by the Depository for the payment of the costs associated with the issuance of the Bonds.

Section 30 Revenue Fund - the Amended and Restated Indenture created the Section 30 Revenue Fund into which GovGuam shall deposit all Section 30 revenues, upon receipt, and which the Trustee, as Depository, will maintain and hold pursuant to the Amended and Restated Indenture. Accordingly, the Trustee created the Bond Reserve Fund and the Debt Service Fund within the Section 30 Revenue Fund.

4. Debt Service, continued

Limited Obligation (Section 30) Bonds Series A, 2016, continued

Bond Reserve Fund - The Trustee is required to hold and maintain within the Bond Reserve Fund an amount equal to the Bond Reserve Fund Requirement. The Bond Reserve Fund Requirement means, as of any date of calculation and with respect to any Bonds, monies in the aggregate amount within each Bond Year at least sufficient to pay and provide for the sum of: (1) an aggregate amount equal to at least 125% of aggregate annual debt service for such Bond Year; (2) an aggregate amount equal to the amounts required to be deposited in the Rebate Fund during such Bond Year required by the Amended and Restated Indenture, plus the amount of Bond Expenses estimated by the Trustee to be payable during such Bond Year; and (3) such amounts as may be required pursuant to the Amended and Restated Indenture (and any supplemental indenture for the issuance of additional Bonds) to increase or restore the Bond Reserve Fund to the Bond Reserve Fund Requirement. As of September 30, 2025 and 2024, the GovGuam General Fund maintains \$17,772,220 and \$18,661,549, respectively, in this fund in accordance with the Bond Reserve Fund Requirement.

Debt Service Fund - the Trustee is required to hold and maintain within the Debt Service Fund an amount equal to the sum of: (1) the interest then due or to become due on all outstanding bonds during the period ending on November 30 of the next succeeding fiscal year; and (2) the principal (including any Mandatory Sinking Account Payments) then due or to become due on all outstanding bonds during the period ending on November 30 of the next succeeding fiscal year.

5. Commitments and Contingencies

Land Condemnation

In 2012, a Court Order was issued for the payment of approximately \$25,115,683 for the condemnation of land that encompasses the Layon landfill. A payment of \$3,410,000 was deposited to the District Court of Guam and distributed to the landowners, with the remaining balance of \$21,705,683 plus interest at 6% per annum calculated from January 24, 2008 to be made. GovGuam negotiated long-term tax credit certificates with certain landowners.

Receiver Appointment

In 2004, GovGuam and the U.S. Environmental Protection Agency filed a Consent Decree in the United States District Court of Guam. The consent decree included deadlines for the opening of a new landfill and implementing an Ordot Dump closure plan. Within a period of forty-five months, GovGuam was required to complete an environmental impact statement analyzing at least three potential new landfill locations; complete design, permitting, and construction for the selected landfill location; begin operations at the new landfill; and properly and permanently close the Ordot Dump. In the event that GovGuam failed to meet any of the stipulated deadlines under the consent decree, GovGuam would be liable for civil penalties.

5. Commitments and Contingencies, continued

Receiver Appointment, continued

In 2008, the District Court issued a Court Order that placed the Solid Waste Division of the Department of Public Works (DPW) in Guam in Receivership. After receiving and reviewing qualifications information on firms presented by GovGuam and the U.S. Environmental Protection Agency, and conducting interviews and reference checks, the District Court Judge selected and appointed a receiver. The Receiver was given full power and authority to enforce the terms of the Consent Decree, including closure of the Ordot Dump and opening of a new landfill, and assume all of the responsibilities for the operations of DPW's Solid Waste Division.

In 2009, the District Court issued a Court Order associated with the DPW Solid Waste Division Receivership requiring GovGuam to provide for costs of the new landfill. GovGuam subsequently issued \$202,425,000 in Limited Obligation Revenue Bonds for the purpose of financing facilities of the Solid Waste Management System of Guam. On August 31, 2011, the Ordot Dump was finally closed and the Layon landfill opened on September 1, 2011.

For the year ended September 30, 2025, recorded receiver related expenditures were \$809,670 with accumulated receiver related expenditures since the appointment of the Receiver on March 17, 2008 through September 30, 2025 amounted to \$25,345,286. Of this amount, \$3,848,700 was funded by the General Fund and the remaining was funded from GSWA operations.

For the year ended September 30, 2024, recorded receiver related expenditures were \$1,214,128 with accumulated receiver related expenditures since the appointment of the Receiver on March 17, 2008 through September 30, 2024 amounted to \$24,535,616. Of this amount, \$3,848,700 was funded by the General Fund and the remaining was funded from GSWA operations.

The District Court maintains a separate trust account from which Receiver fees are paid. Accordingly, timing differences occur between GovGuam records and the fees actually paid and payable to the Receiver by the District Court.

Litigation

GSWA is party to certain legal proceedings. The Office of the Attorney General is of the opinion that the probable outcome of suits existing as of September 30, 2025 is unknown and not predictable. No provision for any liability has been made in the accompanying financial statements because management believes that no unfavorable outcome is likely to occur.

Ordot Dump Financing Plan

In 2016, the District Court ordered the financial plan submitted by the Receiver for the post closure care of the Ordot Dump be adopted. In accordance with the requirements of the order, GovGuam through the Solid Waste Operations Fund is required to make deposits to the Ordot Post Closure Reserve Account of \$2,000,000 per annum through August 2026.

Notes to the Financial Statements, continued

5. Commitments and Contingencies, continued

Ordot Dump Financing Plan, continued

In December 2024, the District Court relieved the Solid Waste Operations Fund of its obligation to pay \$2 million annually into the Ordot Dump Post-Closure Reserves. GSWA suspended transfers beginning October 2024 based on the Receiver's instructions following the transfer of settlement funds to a newly established RCRA Trust Fund. The Receiver transferred \$1.7 million from one of the Ordot Dump Post Closure Custodial account to settle the Ordot Post-Closure Cost Estimate Liability. As such, no deposits were made in FY2025.

6. Major Customers

During the year ended September 30, 2025, one commercial customer, Mr. Rubbishman accounted for approximately 35% of total tipping fees revenues. During the year ended September 30, 2024, two commercial customers, Mr. Rubbishman and Pacific Waste Systems, LLC, accounted for approximately 46% of total tipping fees revenues.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Honorable Lou Leon Guerero
Governor of Guam

Board of Directors
Guam Solid Waste Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Guam Solid Waste Operations Fund, Capital Projects Fund, Debt Service Fund and Ordot Dump Reserve Fund (the Funds), which comprise the balance sheet as of September 30, 2025, and the related statement of revenues, expenditures and changes in fund balances for the year then ended, and the related notes (collectively referred to as the “basic financial statements”), and have issued our report thereon dated May 1, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Funds’ internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control. Accordingly, we do not express an opinion on the effectiveness of the Funds’ internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during the audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Funds' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Funds' Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Funds' response to the findings identified in our audit and described in the accompanying schedule of findings and responses. The Funds' response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

May 1, 2026

Honorable Lou Leon Guererro
Government of Guam

Board of Directors
Guam Solid Waste Authority

We have performed an audit of the financial statements of the Solid Waste Operations Fund, Capital Projects Fund, Debt Service Fund and Ordot Dump Reserve Fund (the Funds), as of and for the year ended September 30, 2025, in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and have issued our report thereon dated May 1, 2026.

This report summarizes our communications with those charged with governance as required by our professional standards to assist you in fulfilling your obligation to oversee the financial reporting and disclosure process.

REQUIRED COMMUNICATIONS

Professional standards require the auditor to provide the Board of Directors (the Board) with additional information regarding the scope and results of the audit that may assist the Board in overseeing the financial reporting and disclosure processes which the management of the Funds is responsible. We summarize these required communications as follows:

Overview of the planned scope and timing of the audit

Our audit scope and timing is consistent with the plan communicated in our engagement letter dated November 25, 2025, in our addendum to the engagement letter dated February 10, 2026 and at our audit planning meeting with management.

Auditors' Responsibilities under Auditing Standards Generally Accepted in the United States (US GAAS) and Generally Accepted Government Auditing Standards (GAGAS)

The financial statements, required supplementary information, supplementary and other information are the responsibility of the Funds' management as prepared with the oversight of those charged with governance. Our audit was designed in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, to obtain reasonable, rather than absolute, assurance that the financial statements are free of material misstatement.

Board of Directors
Guam Solid Waste Authority

An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, we express no such opinion.

An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation.

Our responsibilities are included in our audit engagement letter.

Changes to the audit strategy, timing of the audit and significant risks identified

Our audit strategy is consistent with the plan communicated during the November 25, 2025 meeting.

Matters relevant to our evaluation of the entity's ability to continue as a going concern

We did not identify any events or conditions that led us to believe there was substantial doubt about the Funds' ability to continue as a going concern.

Our views about the qualitative aspects of the entity's significant accounting practices, including:

- **Accounting policies**
- **Accounting estimates**

Management has not selected or changed any significant policies or changed the application of those policies in the current year.

We have provided a discussion of significant accounting policies and our views regarding significant accounting estimates and financial statement disclosures and related matters in Note 1 of the basic financial statements.

We determined that those charged with governance are informed about management's process for formulating particularly sensitive estimates and about the basis to our conclusions regarding the reasonableness of those estimates.

Related party relationships and transactions

We noted no significant matters regarding the Funds' relationships and transactions with related parties to the financial statements.

Board of Directors
Guam Solid Waste Authority

Changes to the terms of the audit with no reasonable justification for the change

None.

Significant unusual transactions

We are not aware of any significant unusual transactions executed by the Funds.

Difficult or contentious matters subject to consultation outside of the audit team

There were no difficult or contentious matters that required consultation outside of the audit team.

Material corrected misstatements related to accounts and disclosures

None.

Uncorrected misstatements related to accounts and disclosures, considered by management to be immaterial

None.

Significant deficiencies and material weaknesses in internal control over financial reporting

No material weaknesses have been identified.

Fraud and noncompliance with laws and regulations (illegal acts)

We are not aware of any matters that require communication.

Obtain information relevant to the audit

Inquiries regarding matters relevant to the audit were performed during the November 25, 2025 meeting and at the update status meetings during the audit.

Independence matters

We are not aware of any matters that in our professional judgment would impair our independence.

Board of Directors
Guam Solid Waste Authority

New accounting pronouncements

No issues have been identified with regard to management's planned application of new accounting pronouncements.

Significant issues discussed with management in connection with the auditor's initial appointment or recurring retention

We are not aware of any matters that require communication.

Disagreements with management and significant difficulties encountered in dealing with management when performing the audit

There were no difficulties encountered in dealing with management in performing the audit.

Management's consultations with other accountants

We are not aware of any consultations made by management with other accountants or specialists.

Other material written communications with management

None.

Other matters

There are no other matters arising from the audit that are significant and relevant to those charged with governance regarding the oversight of the financial reporting process.

AICPA ethics ruling regarding third-party service providers

There are no significant matters arising from the audit that required us to subcontract portions of the Audit Services to other EY firms and that required participation of personnel from an affiliate of EY or another EY firm or any of their respective affiliates, of from independent third-party service providers.

Representations we are requesting from management

We have obtained from management a representations letter related to the audit and a copy of the management representations letter is included in Appendix A.

Board of Directors
Guam Solid Waste Authority

Engagement team’s involvement with preparation of the financial statements

Under GAS 2018 Revision, Chapter 3 Ethics, Independence and Professional Judgment, Paragraph 3.73-74 Provision of Nonaudited Services to Audited Entities explains that the audit team should make consideration of management’s ability to effectively oversee the non-audit services to be provided. The engagement team should determine that the audited entity has designated an individual who possesses suitable skill, knowledge or experience and that the individual understands the services to be performed sufficiently to oversee them. The engagement team should document consideration of management’s ability to oversee non-audit services to be performed.

The engagement team believes that this significant threat is reduced to an acceptable level upon application of the following safeguards:

- An engagement quality control review was performed by a qualified Ernst & Young Partner who was not otherwise involved in the audit.
- The preparation of the financial statements is based on the Funds’ trial balance with our understanding that the Funds’ underlying books and records are maintained by the Funds’ accounting department and that the final trial balance prepared by the Funds is complete.
- All adjusting journal entries that Ernst & Young posted to the trial balance have been approved by management of the Funds.
- The Funds’ Comptroller has the skill sets to oversee and review the completeness and accuracy of the financial statements and footnote disclosures.

This communication is intended solely for the information and use of the Board of Directors and management and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Honorable Lou Leon Guererro
Government of Guam

A – Management Representations Letter

GUAM SOLID WASTE AUTHORITY

LOURDES A. LEON GUERRERO
Governor of Guam

JOSHUA F. TENORIO
Lt. Governor of Guam

IRVIN SLIKE
General Manager

May 1, 2026

Ernst & Young LLP
231 Ypao Road
Suite 201
Tamuning, Guam 96913

In connection with your audit of the basic financial statements of the Guam Solid Waste Operations Fund, Capital Projects Fund, Debt Service Fund and Ordot Dump Reserve Fund (collectively referred as the Funds) as of September 30, 2025 and 2024 (referred to hereafter as the “balance sheet date”) and for the years then ended, and the related notes (collectively referred to hereafter as the “financial statements”), we recognize that obtaining representations from us concerning the information contained in this letter is a significant procedure in enabling you to form an opinion whether the financial statements present fairly, in all material respects, the financial position of the governmental activities of the Funds and respective changes in financial position in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

Accordingly, we make the following representations, which are true to the best of our knowledge and belief:

Management’s responsibilities

We have fulfilled our responsibilities, as set forth in the terms of the audit engagement agreement dated November 25, 2025 and the related addendum to the agreement dated February 10, 2026, for the preparation and fair presentation of the financial statements in accordance with US GAAP applied on a basis consistent with that of the preceding periods.

In preparing the basic financial statements, we evaluated whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Funds’ ability to continue as a going concern for one year after the basic financial statement date.

We acknowledge our responsibility for the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. We have provided you with:

- Access to all information, of which we are aware, that is relevant to the preparation and fair presentation of the financial statements such as records, documentation and other matters. This responsibility includes identifying the use of new technologies or techniques in preparing such information (e.g., the use of generative artificial intelligence), and additional details you may require regarding the use of any such technologies and techniques in order to perform your audit procedures.
- Additional information that you have requested from us for the purpose of the audit

546 N. MARINE CORPS DRIVE, TAMUNING, GU 96913 | TEL: 671-646-3111 | FAX: 671-649-3777

- Unrestricted access to persons within the Funds from whom you determined it necessary to obtain evidence

We have no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.

There are no material transactions that have not been properly recorded in the accounting records underlying the financial statements.

From July 25, 2025, through the date of this letter we have disclosed to you, to the extent that we are aware, any (1) unauthorized access to our information technology systems that either occurred or is reasonably likely to have occurred, including of reports submitted to us by third parties (including regulatory agencies, law enforcement agencies and security consultants), to the extent that such unauthorized access to our information technology systems is reasonably likely to have a material effect on the financial statements of any opinion unit that comprises the basic financial statements, in each case or in the aggregate, and (2) ransomware attacks when we paid or are contemplating paying a ransom, regardless of the amount.

Uncorrected misstatements

There are no uncorrected misstatements (including the effects of correcting or reversing prior period uncorrected misstatements), or uncorrected misstatements in disclosures relating to the current period financial statements for each opinion unit.

Internal control

We have communicated to you all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting.

There have been no significant changes in internal control since September 30, 2025.

Minutes, contracts and internal audit reports

The dates of meetings of shareholders, directors, committees of directors and important management committees from October 1, 2024 to the date of this letter are as follows:

| <u>Minutes of Meeting</u> | <u>Date</u> |
|---|--------------------|
| Board of Directors' Meeting Minutes | October 17, 2024 |
| Board of Directors' Special Meeting Minutes | October 30, 2024 |
| Board of Directors' Meeting Minutes | November 21, 2024 |
| Board of Directors' Meeting Minutes | December 18, 2024 |
| Board of Directors' Meeting Minutes | January 16, 2025 |
| Board of Directors' Meeting Minutes | February 20, 2025 |
| Board of Directors' Meeting Minutes | March 27, 2025 |
| Board of Directors' Meeting Minutes | April 24, 2025 |
| Board of Directors' Meeting Minutes | May 22, 2025 |
| Board of Directors' Meeting Minutes | June 19, 2025 |
| Board of Directors' Meeting Minutes | July 24, 2025 |
| Board of Directors' Meeting Minutes | August 21, 2025 |
| Board of Directors' Meeting Minutes | September 25, 2025 |
| Board of Directors' Meeting Minutes | October 23, 2025 |

Board of Directors
Guam Solid Waste Authority

We have made available to you all minutes of the meetings of shareholders, directors and committees of directors or summaries of actions of recent meetings for which minutes have not yet been prepared.

We also have made available to you all significant agreements and contracts, including amendments, and have communicated to you all significant oral agreements. We have complied with all aspects of contractual agreements that have a material effect on the financial statements.

We also have made available to you all internal audit reports (or reports from similar functions) that were issued to management during the year that address internal control over financial reporting.

Methods, significant assumptions, and data used in making accounting estimates

The appropriateness of the methods, the consistency in application, the accuracy and completeness of data, and the reasonableness of significant assumptions used by us in developing accounting estimates and related disclosures, including fair value measurements, are reasonable and supportable.

Ownership and pledging of assets

Except for assets accounted for in accordance with Government Accounting Standards Board (GASB) Statements No. 87, 94 and 96—as amended, for which we were provided a right-to-use another entity’s nonfinancial asset (the underlying asset), the Funds have satisfactory title to all assets appearing in the statements of net position. No security agreements have been executed under the provisions of the Uniform Commercial Code, and there are no liens or encumbrances on assets, nor has any asset been pledged. All assets to which the Funds have satisfactory title appear in the statements of net position.

Receivables and revenues

Adequate provision has been made for any receivable as of the statement of net position dates that may not be collectible, including any losses, costs and expenses that may be incurred related to the collection of those receivables.

Revenues and other governmental fund financial resources are recognized in the period in which they became both measurable and available to finance expenditures of the fiscal period.

Fair value measurements

We are responsible for the estimation methods and assumptions used in measuring assets and liabilities reported or disclosed at fair value, including information obtained from brokers, pricing services or other third parties. Our valuation techniques have been consistently applied from period to period. The fair value measurements reported or disclosed represent our best estimate of fair value as of the measurement date in accordance with the requirements of GASB Statement No. 72—as amended. In addition, our disclosures related to fair value measurements are consistent with the objectives outlined in GASB Statement No. 72—as amended.

Related party relationships and transactions

We have made available to you the names of all related parties and all relationships and transactions with related parties.

Board of Directors
Guam Solid Waste Authority

A – Management Representations Letter, continued

May 1, 2026

The substance of transactions with related parties as defined in GASB Statement No. 56 – as amended, has been considered and appropriate adjustments or disclosures are made in the basic financial statements, and information concerning these transactions and amounts have been made available to you.

Side agreements and other arrangements

There have been no side agreements or other arrangements (either written or oral) that have not been disclosed to you.

Arrangements with financial institutions

Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances and line-of-credit or similar arrangements have been properly recorded or disclosed in the financial statements.

Events of default under debt agreements

No events of default have occurred with respect to any of the Funds' debt arrangement.

Oral or written guarantees

There are no oral or written guarantees, including guarantees of the debt of others.

Purchase commitments

At September 30 2025 and 2024, the Funds had no purchase commitments for inventories in excess of normal requirements or at prices that were in excess of market at that those dates.

There were no agreements or commitments to repurchase assets previously sold. There were no material commitments outstanding at September 30, 2025 and 2024 as a result of being a party to futures or forwards contracts, short sales or hedge transactions.

Non-compliance with laws and regulations, including fraud

We acknowledge that we are responsible to determine that the Funds' business activities are conducted in accordance with laws and regulations and that we are responsible for identifying and addressing any non-compliance with applicable laws or regulations, including fraud.

We acknowledge our responsibility for the design, implementation and maintenance of internal controls to prevent and detect fraud.

We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.

We have disclosed to you all known actual or suspected noncompliance with laws and regulations whose effects should be considered when preparing the financial statements.

We have no knowledge of any fraud or suspected fraud involving management or other employees who have a significant role in the Funds' internal control over financial reporting. In addition, we have no knowledge of any fraud or suspected fraud involving other employees where the fraud could have a material effect on the financial statements. We have no knowledge of any allegations of financial improprieties, including fraud or suspected fraud (regardless of the source or form and including without limitation, any allegations by "whistleblowers") that could result in a misstatement of the financial statements or otherwise affect the financial reporting of the Funds.

Board of Directors
Guam Solid Waste Authority

Independence

We have communicated to you the names of the Funds' affiliates, as described in the AICPA Code of Professional Conduct ET section 1.224.020 State and Local Government Client Affiliates, officers and directors, or individuals who serve in such capacity for the Funds.

We are not aware of any business relationship between the Funds and Ernst & Young LLP or any other member firm of the global Ernst & Young organization.

We are not aware of any reason that Ernst & Young LLP would not be independent for purposes of the Funds' audits.

Required supplementary information

We acknowledge our responsibility for the required supplementary information on the Management's Discussion and Analysis on pages 5 through 13 which have been measured and presented in conformity with the guidelines and objectives established by the Governmental Accounting Standards Board in its applicable GASB Statement.

There have been no changes in the methods of measurement or presentation of the required supplementary information from those used in the prior period.

There are no significant assumptions or interpretations underlying the measurement or presentation of the information.

Supplementary information

We are responsible for the preparation and fair presentation of the of the following schedules "Supplementary and Other Information":

- Comparative Balance Sheets
- Comparative Statements of Revenues, Expenditures by Function, and Changes in Fund Balances
- Comparative Statements of Revenues, Expenditures by Object, and Changes in Fund Balances
- Comparative Schedules of Receivables, Revenues, and Collections
- Combining Balance Sheets
- Combining Statements of Revenues, Expenditures by Function, and Changes in Fund Balances
- Comparative Schedules of Employees and other Data
- General Obligation Bonds and Limited Obligation Bonds

We believe the supplementary and other information, including its form and content, is fairly stated in all material respects in relation to the financial statements as a whole.

There have been no changes in the methods of measurement or presentation of the supplementary information from those used in the prior period.

There are no significant assumptions or interpretations underlying the measurement or presentation of the information.

Effects of new accounting principles

As discussed in Note 2, we have not completed the process of evaluating the effects that will result from adopting the amendments to the codification provided in:

- GASB Statement No. 102
- GASB Statement No. 103
- GASB Statement No. 104
- GASB Statement No. 105

Other representations

- We have identified and disclosed to you, all provisions of laws and regulations that could have a direct and material effect on financial statement amounts, including legal and contractual provisions for reporting specific activities in separate funds. We have identified and disclosed to you, all instances of identified or suspected noncompliance with laws, regulations, and provisions of contracts and grant agreements where the noncompliance could have a direct and material effect on the financial statements.
- We have followed all applicable laws and regulations in adopting, approving and amending budgets, tax or debt limits and covenants and secondary market disclosures, deposits and investments, including collateral requirements on depository accounts and investments.
- The financial statements present only the Funds. They are not intended to present the financial position and results of operations of the Government of Guam in conformity with US GAAP.
- The financial statements properly classify all funds and activities in accordance with GASB Statement No. 54 — as amended.
- All funds that meet the quantitative criteria in GASB Statement No. 34, as amended and GASB Statement No. 37, for presentation as major are identified and presented as such and all other funds that are presented as major are particularly important to financial statement users.
- Classifications of fund balance (nonspendable fund balance, and restricted, committed, assigned, and unassigned) are properly classified and, if applicable, approved.
- Expenses have been appropriately classified in or allocated to functions and programs in the statements of activities, and allocations have been made on a reasonable basis.
- Revenues are appropriately classified in the statement of activities within program revenues, general revenues, contributions to term or permanent endowments or contributions to permanent fund principal.
- Interfund, internal and intra-entity activity and balances have been appropriately classified and reported in the financial statements.
- Risk disclosures associated with deposits and investment securities are presented in accordance with GASB requirements.
- Provisions for uncollectible receivables have been properly identified and recorded.
- Deposits are properly classified in the category of custodial credit risk.

6

Board of Directors
Guam Solid Waste Authority

A – Management Representations Letter, continued

May 1, 2026

- We are following either our established accounting policy regarding which resources (that is, restricted, committed, assigned, or unassigned) are considered to be spent first for expenditures for which more than one resource classification is available or are following paragraph 18 of GASB Statement No. 54 to determine the fund balance classifications for financial reporting purposes.

Subsequent events have been evaluated and classified as recognized or nonrecognized through the date of this letter.

The Funds has obligated, expended, received and used public funds in accordance with the purpose for which such funds have been appropriated or otherwise authorized by Guam or federal law. Such obligation, expenditure, receipt or use of public funds was in accordance with any limitations, conditions or mandatory directions imposed by Guam or federal law.

Money or similar assets handled by the Funds have been properly and legally administered and the accounting and recordkeeping related thereto is proper, accurate and in accordance with law.

There has been no:

- a. Action taken by the Funds management that contravenes the provisions of federal laws, Guam laws, and laws and regulations, or of contracts and grants applicable to the Funds.
- b. Communication from other regulatory agencies concerning noncompliance with or deficiencies in financial reporting practices or other matters that could have a material effect on the financial statements, which have been provided to you.

Other matters

We have received a draft copy of our financial statements as of and for the years ended September 30, 2025 and 2024. The accuracy and completeness of the financial statements, including footnote disclosures, are our responsibility.

You have assisted in the preparation of our financial statements based on information in our trial balance and accounting records. It is our understanding that:

- Our underlying books and records are maintained by our accounting department and that the final trial balance prepared by us is complete and,
- All adjusting journal entries posted to the trial balance have been approved by us, and
- We have designated a competent representative to oversee your services and that our personnel have sufficient financial competence who are able to challenge and review the completeness and accuracy of the financial statements, including footnote disclosures.

We have reviewed the draft financial statements for accuracy and completeness.

We acknowledge that we have reviewed them and taken responsibility for them.

Board of Directors
Guam Solid Waste Authority

A – Management Representations Letter, continued

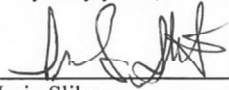

May 1, 2026

Subsequent events

Subsequent to September 30, 2025, no events or transactions as outlined in “Subsequent Events” in Appendix A have occurred or are pending that would have a material effect on the basic financial statements at that date or for the period then ended, or that are of such significance in relation to the Funds affairs to require mention in a note to the basic financial statements in order to make them not misleading regarding the financial position, changes in financial position and, where applicable, cash flows of the Funds.

We understand that your audit was conducted in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America and were, therefore, designed primarily for the purpose of expressing an opinion on the financial statements of the Funds as a whole and that your tests of the accounting records and other auditing procedures were limited to those that you considered necessary for that purpose.

Very truly yours,

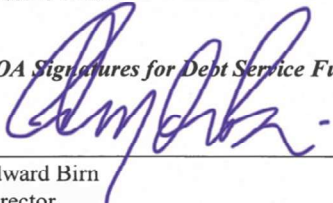

Irvin Slike

| 22 | Are you aware of any going concern indicators (such negative working capital, significant losses, significant credit deterioration of major customers) subsequent to balance sheet date? |

Financial Highlights

Government of Guam Solid Waste Funds' (GGSWF) Financial Audit

Fiscal Year 2025

May 3, 2026

The Office of Public Accountability (OPA) has released the Government of Guam Solid Waste Funds' (GGSWF) Financial Statements and Report on Internal Control Over Financial Reporting and Compliance, and Auditor's Communication With Those Charged With Governance for Fiscal Year (FY) 2025. Independent auditors, Ernst & Young, LLP, rendered an unmodified (clean) opinion on the GGSWF financial statements, comprised of four funds: the (1) Solid Waste Operations Fund, (2) Capital Projects Fund, (3) Debt Service Fund, and (4) Ordot Dump Reserve Fund. These funds collectively ended FY 2025 with an increase in the total fund balance of \$2.3 million (M) or 3%, from \$67.2M in FY 2024 to \$69.5M in FY 2025.

Ordot Dump Reserve Fund Established

The Ordot Dump Reserve Fund was established on February 9, 2024, under Public Law 37-64, to fund the closure and maintenance of Ordot Dump, as well as support the opening and expansion of the Layon landfill. Since the fund is an operational component of GSWA, it was included in the FY 2025 financial audit and will continue to be included in future audits.

Revenues Increased and Expenditures Slightly Increased

GGSWF reported total revenues of \$27.7M in FY 2025, an increase of \$1.7M (or 7%) from \$26M in FY 2024. This increase was primarily due to an increase within the Solid Waste Operations Fund of \$441 thousand (K) in tipping fees, along with an increase of \$1.1M in the use of money and property across all four funds. During FY 2025, one commercial customer accounted for 35% of total tipping fees revenues.

Total expenditures of \$42.1M in FY 2025 increased by \$374K (or 1%) from \$41.7M in FY 2024. The increase in expenditures is primarily due to an increase of \$1.7M in Solid Waste Operational costs in FY 2025, and offset by a reduction in Debt Service of \$1.3M.

Partial End of Receivership

Guam Solid Waste Authority (GSWA) is required (by court order) to fully fund, by August 2026, a trust account to pay for the estimated future costs of managing and maintaining the Ordot landfill site until the site can be reclaimed by GovGuam for alternative use. The court order also required: 1) GSWA and the Receiver to come up with a baseline schedule for seeps, leachate, and meter calibration investigations, and 2) an estimate for post-closure care expenses, with proposed funding options and a proposed schedule for the full termination of Receivership. To date, many of these initiatives have been completed or are well on their

way to completion. The mediation effort of these initiatives may hasten the release of the Receiver in 2026.

Outlook, Challenges, and Opportunities

As of the end of FY 2025, GSWA continues to face similar challenges from the previous fiscal year. Operationally, GSWA is focused on instructing, coaching, and transforming its current collection workforce to the established 21st-century standard procedures for safe, economical, and customer service-oriented collection methods.

Financially, GSWA is working to build sufficient capital improvement funds to support cell construction, closure, and post-closure requirements. Additionally, GSWA is exploring options for renegotiating Receiver contracts. In terms of contract savings and adjustments, the Household Hazardous Waste (HHW) contract and Green Group contracts have generated significant savings to date. Additionally, the Temporary Labor services contract was rebid to meet Public Utilities Commission (PUC) required yearly targets, including adjustments to the scope and term of the Ordot Operations contract. These changes are expected to yield savings in 2024 and 2025.

Receiver-related expenditures were \$810K in FY 2025. Accumulated receiver-related expenditures have amounted to \$25.3M since the appointment of the Receiver on March 17, 2008, through September 30, 2025. Of this amount, \$3.8M was funded by the General Fund, and the remaining was funded from GSWA operations.

Litigation

GSWA is party to certain legal proceedings, and the Office of the Attorney General is of the opinion that the probable outcome of suits existing as of September 30, 2025 is unknown and not predictable. No provision for any liability has been made in the accompanying financial statements because management believes that no unfavorable outcome is likely to occur.

Report on Internal Control Over Financial Reporting and Compliance

The independent auditors did not identify any deficiencies in internal control that were considered material weaknesses or significant deficiencies. However, it is possible that some deficiencies may exist that have not been identified during the audit.

For a detailed discussion on GSWA's operations, refer to the Management's Discussion and Analysis, or review the reports in their entirety at our website: www.opaguam.org.
