Audits

The Mayors' Council of Guam remains dedicated to continually improving the quality of life for all residents of Guam. Throughout Fiscal Year 2024, our focus has been on ensuring the efficient delivery of essential services, promoting safe communities, and maintaining clean, welcoming public spaces that foster community pride.

The Mayors' Council of Guam has continued to make meaningful progress in strengthening transparency, accountability, and efficiency throughout its operations. These efforts are intended not only to improve the delivery of services but also to ensure responsible stewardship of the resources entrusted to the Council.

During FY2024, we continued to strengthen financial oversight, improve documentation and administrative processes, and ensure that our programs and services remain responsive to the needs and expectations of the communities we serve. We recognize that continuous improvement of internal processes is essential to maintaining effective, reliable, and accountable public service.

The Mayors' Council of Guam has also remained committed to addressing prior audit findings and implementing appropriate corrective measures and recommended best practices. These efforts are designed to enhance operational efficiency, strengthen internal controls, and promote greater accountability across our programs and services.

LOOKING AHEAD

The Mayors' Council of Guam (MCOG) remains committed to maintaining sound financial management while continuing to provide essential services and support to Guam's 19 municipalities.

As the Council looks toward the future, MCOG recognizes the importance of maintaining responsible fiscal practices and ensuring that available resources are allocated effectively and efficiently. Changes in the cost of goods and services, utilities, equipment, and personnel may place additional pressure on municipal and Council budgets. At the same time, maintaining public facilities, parks, recreational areas, roads, and other community assets requires continued investment and planning.

The Council also anticipates that identifying sustainable funding sources will remain an important priority. MCOG will continue to pursue available local and federal funding opportunities, and support programs that benefit Guam's communities. Strengthening partnerships with local government agencies, federal partners, community organizations, and other stakeholders will remain essential to addressing emerging needs and maximizing available resources.

Despite these challenges, the economic outlook for FY2024 remains focused on stability, responsible stewardship, and continued improvement in the delivery of municipal services. MCOG will continue to monitor economic conditions and adjust its priorities as necessary to ensure that resources are directed toward essential services and the needs of Guam's residents.

Looking ahead, MCOG remains committed to strengthening its financial position, improving operational efficiency, enhancing accountability and transparency, and fostering collaboration among Guam's mayors, government agencies, and community partners. Through prudent financial management and strategic planning, the Council will continue working toward sustainable growth and improved quality of life for residents throughout Guam.
