Hafa Adai Edna and GMHA Payer Partners,

Thank you for your participation and feedback during the FY2026 4th Quarter Public Hearing for the GMHA Fee Schedule.

As requested, below are the questions and inquiries submitted by Edna Carbonell of StayWell Insurance following the public hearing. During the hearing, similar questions and concerns regarding the proposed 4th Quarter Fee Schedule were also expressed by our other payer partners. Therefore, we are sharing GMHA's response with everyone to ensure consistent communication, clarification, and documentation.

The questions raised were as follows:

1. **Professional Fee for CPT 37286 MD REVSC EVSC TPVT ST CPLX 1st (item #29)** – I have validated that this procedure code doesn't have a corresponding fee in the current Physician Fee Reference (PFR) and indicated "IR " (Inconclusive Results) however, there's a proposed fee model rate of $11,677.55. Could you please clarify the basis of your fee model rate?

2. **For hospital fees listed as New code(s) under item#35 93985 DUP-SCAN HEMO COMPL BI STD and item # 36 93986 DUP-SCAN HEMO COMPL UNI STD**- Upon validation, these services are not new. Both codes currently have established rates published in GMHA Charge Description Master (CDM) effective 4/1/2026 at $115 and $67 respectively (see below snippet below). We would appreciate clarification regarding the proposed adjustments for these services. Specifically, please advise whether the revised rates are intended to reflect a change in the revenue center or service category such as a transition to Imaging Services or if there are other factors supporting the adjustment. Additionally, we noted that the proposed fees represent a significant increase of approximately 424-427% over the currently established rates. These substantial adjustments raise concerns about pricing sustainability, and so we respectfully request a review to ensure more reasonable and market-aligned pricing.

GMHA Response:

Thank you for submitting your questions and concerns following the public hearing. We appreciate the opportunity to provide clarification and document the basis for the proposed charges.

Regarding the items raised, please see our responses below.

1. Professional Fee – CPT 37286

CPT 37286 is among the newly released 2026 CPT codes for which the Physician Fee Reference (PFR) currently reflects a status of **"IR" (Inconclusive Results)** and does not provide an established corresponding fee.

The code was created in GMHA's CDM in anticipation of future utilization and to ensure that the appropriate charge is available when the service is performed.

Because an established PFR amount was unavailable, the **2026 Medicare Physician Fee Schedule (MPFS)** was utilized as the reference in developing the proposed fee model rate for this code.

CPT 37286 represents revascularization involving the tibial/peroneal vascular territory with transluminal stent placement for a complex lesion, including angioplasty when performed and the associated access, catheterization, imaging guidance, radiological supervision, and interpretation included within the procedure.

2. CPT 93985 and CPT 93986 – Professional Fee vs. Technical Component

Thank you for identifying the existing rates in GMHA's CDM. You are correct that CPT 93985 and CPT 93986 are existing procedure codes. The clarification is that the existing amounts referenced in your inquiry represent the **Professional Fee (PF)**, whereas the additional charges submitted for consideration are the **Technical Component (TC)** requested by the Radiology Department.

The applicable charges are as follows:

CPT 93985 – Duplex Scan, Hemodialysis Access, Complete

- Professional Fee: **$115.00**
- Existing code since February 27, 2020; updated through the hospital's annual fee update.
- Technical Component: **$603.00**

Note that the Legislature has taken steps to ensure that any protected personal identifying information has been redacted or excluded in whole or in part in order to protect the privacy of any individual(s) whose information has been included as part of this transmittal.

- New Radiology charge code **2093985**, effective May 26, 2026.

CPT 93986 – Duplex Scan, Hemodialysis Access, Complete, Unilateral

- Professional Fee: **$67.00**
- Existing code since February 27, 2020; updated through the hospital's annual fee update.
- Technical Component: **$353.00**
- New Radiology charge code **2093986**, effective May 26, 2026.

Accordingly, the $603 and $353 amounts are not proposed increases to the existing $115 and $67 Professional Fees. Rather, they represent separate Technical Component charges established at the request of the Radiology Department to account for the hospital resources associated with performing these services.

The charges are assigned to Department Code 670 – Ultrasound, which correlates to G/L Key 04670, consistent with the Radiology/Ultrasound service area.

We appreciate StayWell and our payer partners bringing these items to our attention, as the distinction between the existing Professional Fee and the newly established Technical Component is important in understanding the proposed fee schedule.

Please let us know if you need any additional information or supporting documentation regarding these charges.

Hello Yuka and Sydie,

Thank you for the opportunity to share our questions and concerns during the public hearing held today. Per your request and for documentation purposes, I am submitting this email to formally reiterate those concerns.

The concerns raised were as follows:

2. **Professional Fee for CPT 37286 MD REVSC EVSC TPVT ST CPLX 1st (item #29)** – I have validated that this procedure code doesn't have a corresponding fee in the current Physician Fee Reference (PFR) and indicated "IR " (Inconclusive Results) however, there's a proposed fee model rate of $11,677.55. Thank you for looking into these matters and I look forward to your response.
